

Virtualstock welcomes Banner to The Edge4Health

London, September 30 2019 – Banner has become the latest major supplier to join The Edge4Health.

The 200 year-old business supplies company makes over 18,000 deliveries a day to private and public sector organisations. It joins the Healthcare supplier community in using The Edge4Health at a key time for the NHS, as it looks to harness technology to improve efficiencies and cost savings.

The Edge4Health enables healthcare providers to deliver efficiencies via its online catalogue, marketplace and procure-to-pay solution, and simplifies how healthcare suppliers trade with the NHS whilst showcasing their product range and expanding their customer reach.

The Edge4Health harnesses the supplier's own product data to allow Healthcare Providers to procure products using the correct and most current data. This in turn enables purchase order processing to be truly efficient, allowing accurate invoicing which decreases invoice discrepancies, and can lead to faster payments.

The platform is GS1 and PEPPOL certified.
