

Virtualstock welcomes Metro Rod to The Edge4Health

London, October 16 2019 – Metro Rod has joined the increasing number of service suppliers now using The Edge4Health.

The drain care and repair services company was founded in 1983 and has over forty local centres throughout the UK tackling drainage emergencies 24 hours a day, 7 days a week .

It joins the Healthcare supplier community in using The Edge4Health at a key time for the NHS, as it looks to harness technology to improve efficiencies and cost savings.

The Edge4Health enables healthcare providers to deliver efficiencies via its online catalogue, marketplace and procure-to-pay solution, and simplifies how healthcare suppliers trade with the NHS whilst showcasing their product range and expanding their customer reach.

It harnesses the supplier's own product data to allow Healthcare Providers to procure products using the correct and most current data. This in turn enables purchase order processing to be truly efficient, allowing accurate invoicing which decreases invoice discrepancies, and can lead to faster payments.

The platform is GS1 and PEPPOL certified.
